

# The American Institute of Architects Continuing Education System

## AIA/CES Registered Provider Program Summary Handout

---

|   |   |
|---|---|
| <b>Provider:</b> Glass Association of North America | <b>Length:</b> 1 hour                         |
| <b>Program #:</b> LD0001                            | <b>Credits:</b> 1 LU Hour<br>(Sustainability) |
| <b>Program:</b> Laminated Glass 101                 | <b>HSW:</b> Yes                               |

---

**Description:** A study of the manufacturing process for laminated glass.

### Learning Objectives:

- ◆ What is laminated glass?
- ◆ How is it made?
- ◆ Features of laminated glass
- ◆ Conclusions

**How Taught:** The CES facilitator utilizes a PowerPoint presentation to provide an in-depth overview of how laminated glass is manufactured and utilized. The presentation concludes with an overview of the benefits of using glass in architectural applications, along with additional educational resources.

**A/V Needs:** Electrical power, screen and computer projector for the PowerPoint presentation. (The CES facilitator supplies the laptop and laser pointer.)

**Target Audience:** Architects, specifiers, owners and other design professionals in the commercial market. The ideal audience size can be one on one or over 50. The program meets every experience level with time designed into the program for questions and answers.

**Facilitator Qualifications:** All GANA CES facilitators have been trained on CES guidelines and presentation skills. In addition, the facilitators are individuals working within the commercial architectural glass industry, representing the Association.

**Costs:** There is no cost to bring this program into your firm or chapter meeting.
