

The American Institute of Architects Continuing Education System

AIA/CES Registered Provider Program Summary Handout

| | | | |
|-------------------|------------------------------------|----------------------------|--------|
| Provider: | Glass Association of North America | Length: | 1 hour |
| Program #: | PG0101 | Credits: | 1 LU |
| Program: | Protective Glazing 101 | HSW/Sustainability: | Yes |

Description: A study of the types and applications of protective glazing.

Learning Objectives:

- Understanding threats to glazing in buildings
 - Ballistic, forced entry, burglar-resistant, natural disasters including hurricanes and earthquake, bomb-blast, fire
- Defining test methods and standards
- Selecting glazing for product specifications
- Defining glazing products and their performance and characteristics
 - All glass laminates
 - Glass clad polycarbonate
 - Laminated polycarbonate
 - Acrylics

A/V Needs: Electrical power, screen and computer projector for the PowerPoint presentation. (The CES facilitator supplies the laptop and laser pointer.)

How Taught: The CES facilitator utilizes a PowerPoint presentation to provide an in-depth overview of what is protective glazing, its uses and applications. The presentation concludes with an overview of additional educational resources and relevant test standards and specifications

Target Audience: Architects, specifiers, owners and other design professionals in the commercial market. The ideal audience size can be one on one or over 50. The program meets every experience level with time designed into the program for questions and answers.

Facilitator Qualifications: All GANA CES facilitators have been trained on CES guidelines and presentation skills. In addition, the facilitators are individuals working within the commercial architectural glass industry, representing the Association.

Costs: There is no cost to bring this program into your firm or chapter meeting.
