ABOUT NGA

Founded in 1948, the National Glass Association (NGA), glass.org, combined with the Glass Association of North America (GANA) on February 1, 2018 to form the largest trade association serving the architectural glass and metals industry supply chain, including glazing contractors, full-service glass companies, glass fabricators, primary glass manufacturers and suppliers to the industry. It is a technical powerhouse that brings some of the best minds to the table to create technical resources and promote and advocate for glass in buildings. NGA's education and training resources—including MyGlassClass.com—and its official publications Glass Magazine and Window + Door, keep the industry knowledgeable and well informed. NGA also produces the industry's largest annual trade show in the Americas, GlassBuild America, and hosts these conferences: NGA Glass Conferences, Building Envelope Contractors (BEC) Conference, Glazing Executives Forum, and GPAD (Glass Processing Automation Days). See more information on member benefits at glass.org.

NGA: PURPOSE, VISION AND GOALS

The NGA Board of Directors and other industry volunteers and stakeholders met recently to identify the Association's Purpose and Vision, and to outline the Association's Goals for the next few years.

NGA's Core Purpose:

NGA is the authority and resource for its members and the industry to grow successful businesses and to champion the benefits of glazing and glass building products.

NGA's Vision:

We envision a future in which glass is the material of choice to enhance spaces where people live, play, learn and work.

NGA's Goals:

Educate: Drive excellence, safety and results through education and training.

Promote: Elevate the image of glass as a safe, healthy, sustainable and inspiring building

product and advance the industry as a viable, thriving and exciting career path.

Advocate: Be a strong advocate to defend and promote the glass industry.

Grow: Build NGA's membership to develop influence, impact and results.
