

The American Institute of Architects Continuing Education System

AIA/CES Registered Provider Program Summary

Provider:	National Glass Association	Length:	1 hour
Program #:	ID0002	Credits:	1 LU
Program:	Multi-Cavity Insulating Glass Units	HSW/Sustainability:	Yes

Description: A study on the design, construction and application of multi-cavity glazing, as well as the ideal use for performance achievements.

Learning Objectives:

- List at least three drivers that lead to the selection of multi-cavity glazing.
- Identify two design and construction advantages of multi-cavity glazing.
- Understand three challenges of multi-cavity glazing constructions vs. double glazed.
- Select the correct multi-cavity construction to meet certain performance characteristics.

Target Audience: Architects, specifiers, owners and other design professionals in the commercial market. The ideal audience size can be one-on-one or over 50. The program meets every experience level with time designed into the program for questions and answers.

A/V Needs: Electrical power, screen and computer projector for the PowerPoint presentation. The CES facilitator supplies the laptop and laser pointer.

How Taught: The CES facilitator utilizes a PowerPoint presentation to offer a live presentation, allowing time for Q&A with the participants.

Facilitator Qualifications: All NGA CES facilitators have signed the AIA speaker agreement. In addition, the facilitators are individuals working within the commercial architectural glass industry at member companies of the Association.

Costs: There is no cost to bring this program into your firm or chapter meeting.
