

# The American Institute of Architects Continuing Education System

## AIA/CES Registered Provider Program Summary

---

|                   |   |                            |        |
|-------------------|---|----------------------------|--------|
| <b>Provider:</b>  | National Glass Association                        | <b>Length:</b>             | 1 hour |
| <b>Program #:</b> | TD0002_L  | <b>Credits:</b>            | 1 LU   |
| <b>Program:</b>   | Understanding Applications for Heat-Treated Glass | <b>HSW/Sustainability:</b> | Yes    |

---

**Description:** A study of the types of and applications for heat-treated glass.

### Learning Objectives:

- State two main reasons for heat-treating glass
- Describe the differences in characteristics between fully tempered glass and heat-strengthened glass
- List two typical applications for fully tempered glass
- Explain the three phases of heat treating glass

**How Taught:** The CES facilitator utilizes a PowerPoint presentation to offer a live presentation, allowing time for Q&A with the participants.

**A/V Needs:** Electrical power, screen and computer projector for the PowerPoint presentation. The CES facilitator supplies the laptop and laser pointer.

**Target Audience:** Architects, specifiers, owners and other design professionals in the commercial market. The ideal audience size can be one on one or over 50. The program meets every experience level with time designed into the program for questions and answers.

**Facilitator Qualifications:** All NGA CES facilitators have signed the AIA speaker agreement. In addition, the facilitators are individuals working within the commercial architectural glass industry at member companies of the Association.

**Costs:** There is no cost to bring this program into your firm or chapter meeting.
