

# The American Institute of Architects Continuing Education System

## AIA/CES Registered Provider Program Summary

---

<b>Provider:</b>	National Glass Association	<b>Length:</b>	1 hour
<b>Program #:</b>	NGA0822_L	<b>Credits:</b>	1 LU
<b>Program:</b>	Designing with Glass: Cast & Heat-Formed	<b>HSW/Sustainability:</b>	No

---

**Description:** This course is designed to educate architects and designers about the ways to incorporate decorative glass using cast and heat-formed glazing materials into a building space. It will review in detail a variety of cast and heat-formed decorative glass products that enhance aesthetic appeal and maintain occupant comfort.

### Learning Objectives:

- Define the different types of cast and heat-formed decorative glass
- Determine which types of cast and heat-formed decorative glass are suitable for different applications
- Describe how different types of cast and heat-formed decorative glass products are made
- List key considerations of specifying cast and heat-formed decorative glass

**Target Audience:** Architects, specifiers, owners and other design professionals in the commercial market. The ideal audience size can be one on one or over 50. The program meets every experience level with time designed into the program for questions and answers.

**A/V Needs:** Electrical power, screen and computer projector for the PowerPoint presentation. The CES facilitator supplies the laptop and laser pointer.

**How Taught:** The CES facilitator utilizes a PowerPoint presentation to offer a live presentation, allowing time for Q&A with the participants.

**Facilitator Qualifications:** All NGA CES facilitators have signed the AIA speaker agreement. In addition, the facilitators are individuals working within the commercial architectural glass industry at member companies of the Association.

**Costs:** There is no cost to bring this program into your firm or chapter meeting.
